

ASP's OR Solution

Safely Achieve Sterilization in the Operating Room.

ADVANCED STERILIZATION PRODUCTS

Division of Ethicon, Inc.

a *Johnson & Johnson* company

ASP's OR Solution

PROCESS SOLUTION

The combination of ASP's compact and fast STERRAD® NX™ Sterilization system, ASP's strong relationship with key Medical Device Manufacturers (MDMs) and innovative packaging solutions, such as APTIMAX® Instrument Trays, closed containers and pouches, provide you with an optimized solution to streamline sterilization in your Operating Room.

STERILITY ASSURANCE

ASP's STERRAD® Sterility Guide is an easy-to-use, online tool available 24 hours a day, 7 days a week. It is designed to provide STERRAD® System customers with a list of devices that fall within the cleared sterility claims. With a few clicks of the mouse, you can quickly determine if a device can be sterilized in a STERRAD® System. Check it out at www.sterradsterilityguide.com.

Close Relationships with MDMs: ASP works closely with the leading medical device manufacturers to validate sterility claims. Please contact your MDM directly to ensure the STERRAD® NX™ System will properly sterilize your device. For MDM contact assistance, please visit www.aspjj.com/alternatives.

FINANCIAL OPTIONS

ASP offers attractive promotions, such as the ASP Alternatives Promotion, which provides a \$6,000 discount off the cost of a new STERRAD® NX™ System when you turn in a STERIS System 1,* and attractive financing and leasing options to help you obtain the infection prevention solution your patients and staff deserve.

EDUCATION & SERVICE

ASP offers excellent service and support options to help ensure that your facility operates with maximum uptime and predictability. Our highly skilled team of field service engineers and dedicated technical support staff is available to answer your questions and ensure your facility operates efficiently at all times. In addition, ASP's licensed clinical professionals can help you quickly transition to the ASP OR Solution by providing thoughtful guidance on the processing steps required to terminally sterilize with the STERRAD® NX™ System and the innovative packaging solutions we offer.

About ASP

Advanced Sterilization Products (ASP), division of Ethicon, Inc., is a leading developer of innovative instrument sterilization, high-level disinfection and cleaning technologies. The company is dedicated to protecting patients, healthcare workers, and the environment with products that focus as much on safety as they do on efficacy and cost-effectiveness. Utilizing advanced instrument processing technologies, these products help customers to promote positive patient outcomes while controlling costs, increasing productivity and enhancing safety. The company is based in Irvine, California, with offices around the world.
