

CIDEX® OPA Solution Compared to MetriCide® OPA Plus

The Choice is Clear

There are many factors to consider when choosing an OPA solution. Before you switch, consider the soft costs:

RETRAINING OF ALL HOSPITAL AND AMBULATORY CENTER STAFF

REVISIONS OF POLICIES AND PROCEDURES

INCREASED COST OF STERILE WATER DUE TO DIFFERENT RINSING REQUIREMENTS¹

UNKNOWN EFFECTS OF A HIGHER CONCENTRATION ON INSTRUMENTATION

When it comes to patient safety.... ASP has you covered!

Published studies and over 10,000 customers

- ▶ Introduced original formulation in 1999, 12-year history of use
- ▶ 88 Sales Representatives, 11 Clinical Education Consultants dedicated to providing education and in-servicing, plus 24/7 technical support
- ▶ High-quality bottle with ergonomic handle ensures smoother pouring
- ▶ Proof of material and functional compatibility with Pentax Medical, Karl Storz, Olympus and Fujinon endoscopes^{2,3}

No 3rd party independent studies

- ▶ Generic product, slightly different concentration – only 5-year history in use
- ▶ Less than 30 Sales Representatives, no dedicated Clinical Educational Specialists

Does Your OPA Product Have...

▶ PROOF OF ENDORSEMENT FROM INDUSTRY GUIDELINES?

CIDEX® OPA Solution is recommended for use in the ASGE & SHEA Multi-society Guidelines as a high-level disinfectant cleared by the FDA.⁴

CIDEX® OPA Solution is listed in the SGNA Guidelines for High-Level Disinfectants for Reprocessing of Endoscopes as an FDA-cleared Sterilant and High-Level Disinfectant.⁵

▶ PROOF OF COMPATIBILITY FROM SCOPE MANUFACTURERS?

CIDEX® OPA Solution is materially and functionally compatible with endoscopes manufactured by:^{2,3}

- Pentax Medical
- Karl Storz
- Olympus
- Fujinon

▶ PUBLISHED STUDIES?

CIDEX® OPA Solution is the only OPA with independent 3rd party studies to support its claims.⁶
